Institute of Statistical, Social and Economic Research, University of Ghana, February 2012

MCC welcomes this report. MCC Management has analyzed its findings and recommendations. Taken with other evaluations in this sector, the findings are an important source of learning for MCC. MCC will use these findings to inform its on-going and future sector and evaluation work.

MCC management is particularly interested in conducting further analysis on the differences in the program impacts across the three geographical regions in which training activities were undertaken. MCC will publish that analysis after it is completed.
