

Moldova

Update on Progress

- ★ MCC and the Government of the Republic of Moldova signed a compact agreement on January 22, 2010. The five-year \$262 million compact demonstrates the Moldovan commitment to reduce poverty and accelerate economic growth by focusing on enabling improved agricultural productivity and expanding access to markets and services through critical infrastructure investments in the irrigation and road sectors, and capacity building in the high value agriculture sector.
- ★ During the development of the compact, MCC partnered closely with other U.S. Government agencies as well as international and multilateral donors, including the World Bank. MCC will continue these close relationships during the implementation phase, particularly with USAID in the Transition to High Value Agriculture Project.
- ★ For additional information on the consultative process and the proposal, please visit the Government of Moldova's MCA website at www.mca.gov.md.
